PRESENTATION

Fifth International Joint Meeting on THORACIC SURGERY

Barcelona, 17th, 18th and 19th November, 2021

www.thoracicsurgery2021.org

Barcelona, may 2021

Dear Sir/Madam,

We are pleased to inform you that the “Fifth International Joint Meeting on Thoracic Surgery, Barcelona 2021” will be held on 17th, 18th and 19th November 2021 in this city. The rewarding experiences of the First, Second, Third and Fourth International Joint Meetings on Thoracic Surgery held in the same city in 2009, 2012, 2015 and 2018 encourages all of us to work together once again with the purpose of celebrating the fifth edition in 2021.

This “Joint Meeting” is the combination of three initiatives that have been developed over recent years here in Spain. The intention is to bring together, in one conference, the latest information about the key topics, and the most controversial ones, in our speciality. The five initiatives are: the “10th International Meeting on General Thoracic Surgery”, which, since 1992, has been organised by the Thoracic Surgery Department at the Hospital Sagrat Cor; the “9th International Workshop on Surgical Exploration of the Mediastinum and Systematic Nodal Dissection”, organised by the Thoracic Surgery Department at the Hospital Universitari Mutua Terrassa; the “4th Meeting of the Thoracic Oncology, Thoracic Surgery, Techniques & Transplant, Respiratory Nursing and Respiratory Physiotherapy Areas of the Spanish Society of Pneumology and Thoracic Surgery (SEPAR)”, the “3rd Meeting on Malignant Thymic Tumours” and the “2nd Joint Meeting of the Spanish Society of Thoracic Surgery (SECT)”.

We are very aware that without your participation in the conference, it would be very difficult for this scientific event to take place. Therefore, we would very much like the event to fulfil your expectations and meet your requirements.

As you will see below, we are open to lots of different options of working together, ranging from the traditional exhibition stand to organising a lunch seminar for between 50-60 delegates where companies can present their latest technological advances. Naturally, financing the attendance of professionals at the Joint Meeting suits both companies such as yours and the Organising Committee, which believes this is the best way to ensure the event is a success and to cultivate personal relationships.

We hope you will find the scientific programme and the guest speakers a strong incentive to participate in the 2021 Joint Meeting.

Please do not hesitate to contact us should you have any questions or comments. We would also be happy to discuss tailor-made proposals of working together that are not outlined above or in the attached information.
